As an adult, everyone loves balloons. Anyone who grew up in the 80s remember them as a favorite part of childhood birthday parties. The colorful and soft nature of these balloons suits their small size perfectly, but also makes it easy for them to stick to walls. The big problem with balloons is that they get stuck to walls and are unable to move. With Balloon Blowout Cracked Accounts, you can finally pop all the balloons in the world! Balloon Blowout is a fast-paced puzzle game which features a fun twist on traditional levels: the balloons have personalities, and sometimes even have a mouth full of air that you have to pop! For each balloon popped, you gain points and also pick up the balloon's object: you can take the point-awarding power cube, a flashlight or even a gun! Pop as many balloons as possible and you'll be facing the ultimate challenge of chasing after all the remaining balloons. How to Play: Just tap and hold balloons to blow them up. But don't do it too early, or you'll lose points! Only select the right moment, and the balloon will rise and pop. Try to aim at the sides of the balloon to pop it, and also try to do it in groups to receive bonus points. But keep your eyes on the balloons, as you'll also lose points if your balloon accidentally pops during a game. Pop enough balloons, and the balloon's skin will tear open and you'll start getting points! You can also pop balloons with special powers. Try to aim at the center of the balloon when popping balloons with a special power, and you'll get bonus points! Balloon Blowout is also the party game of the year! Go head-to-head with friends in multiplayer mode! Your extra balloon lets you boost your score and win points, and the more balloons you have the more your score will rise! And there's always a new special power for you to discover! Remember to love, hug and laugh balloons! Features: • 55 Different Surprising Levels - Balloon Blowout has a total of 55 colourful, wacky levels, where you must pop the balloons to bring the funny balloon faces back to their owners. • Diversity - You'll be popping some completely new designs of balloons in each level, including the famous Starballos. • Original, Funny Soundtracks - Add some variety to your experience and listen to the original score in

Balloon Blowout is one of those games you remember when you were just a kid, where you'd do a huge amount of fun in no time flat just by blowing up the first balloon you spotted. So you can't imagine what's going to happen when you get the game for the first time and you look at that huge collection of amazing colorful, funny and phallic balloons. You can pop balloons in every imaginable way. There are balloons with

funny faces, balloons with amazing powers, balloons with crazy sounds, and lots of balloons with exciting gameplay. Some balloons only have one face or one balloon only has one power; others have a thousand faces and a thousand balloons, while others have a hundred faces and a hundred balloons. But you don't need to play around with all those balloons right away. Just grab a colored balloon, blow a single balloon, or blow a group of balloons all at once. The more balloons you blow, the more points you earn. The best way to increase your points is to blow balloons of the same color together in a row. But there's no need to stop there. You can have more fun by popping balloons with random powers. Some, like the pop-gun, spit blue bubbles at you, and others have magical powers like melting things in your hands. There are tons of characters, each with its own biography. You can choose to play one of four different game modes. Score Attack is about blowing as many balloons as possible without getting hit, while Capocontrol is about popping the most balloons in the quickest amount of time. Survivor is about collecting as many points as possible, no matter how long you have to play. Finally, there's Balloon Genie, a mode where you pop balloons to get to the next level. There's no time limit in a single Balloon Blowout game, and you can save at any time. Developed by Gloob. Available for iOS, Android and Windows Phone.
